I. Introduction

1. The General Assembly, in operative paragraph 1 of its resolution 60/44, called upon all Member States to report annually, by 30 April, to the Secretary-General their military expenditures for the latest fiscal year for which data were available, using, preferably and to the extent possible, the reporting instrument as recommended in its resolution 35/142 B or, as appropriate, any other format developed in conjunction with similar reporting on military expenditures to other international or regional organizations, and encouraged Member States that had no information to submit nil returns.

2. By operative paragraphs 5 (b), (f) and (g) of its resolution 60/44, the General Assembly requested the Secretary-General, within available resources, to circulate annually the reports on military expenditures as received from Member States; to promote international and regional/subregional symposiums and training seminars to explain the purpose of the United Nations system for the standardized reporting of military expenditures and to give relevant technical instructions; and to report on experiences gained during such symposiums and training seminars.

3. In operative paragraph 6 (b) of the same resolution, the General Assembly encouraged Member States to provide the Secretary-General, in time for deliberation by the General Assembly at its sixty-second session, with their views and suggestions on ways and means to strengthen and broaden participation in the standardized reporting system, including necessary changes to its content and structure. In accordance with that request, the Secretary-General has received views from the European Union. Those views are contained in the annex to the present report.

4. On 29 January 2007, a note verbale was sent to Member States requesting them to submit their reports no later than 30 April 2007. The replies received are reproduced in section III below. Additional replies received from Member States will be issued as addenda to the present report.

II. Action taken

5. Owing to the non-availability of extrabudgetary assistance, the Office for Disarmament Affairs was unable to organize seminars and/or workshops to enhance familiarity with and encourage greater participation in the United Nations standardized instrument for reporting military expenditures. Within available resources, however, the Office distributed background information on the progress of the United Nations standardized reporting instrument at the Seventh Conference of Ministers of Defence of the Americas, held in Managua, from 1 to 5 October 2006, and contributed a written presentation to the plenary session of the Hemispheric Security Committee of the Organization of American States, which was held in Washington, D.C., on 1 December 2006. In addition, the Office for Disarmament Affairs engaged in informal consultations with Member States with a view to achieving a high level of participation in the United Nations standardized reporting instrument.

III. Replies received from Governments

Explanatory note

6. To date, the Secretary-General has received reports from 69 Governments. In most cases, Governments have reported the figures in the tables presented below on the basis of the United Nations standardized instrument for reporting military expenditures. The information on military expenditures received has been computerized, with minor adjustments, to conform to standard statistical practices.

7. The originals of the replies from States are available through the Office for Disarmament Affairs. The annual reports and other relevant information on the standardized instrument for reporting military expenditures are available electronically on the Office's website at http://disarmament.un.org/cab/milex.html.

Footnotes:

1: Artillery and Ammunition are considered inventory and have previously been included in Material for Current Use. For 05-06, the consumption of Explosive Ordinance has been split out and classified as ammunition.

2: Procurement information has been provided by the DMO from the Major Capital Equipment Program except for Ammunition which is based on inventory consumption.

3: Construction information has been sourced from analysis of the information provided in the Capital Facilities Program as decribed in the 2005-06 Annual Report.

4: Although Military Assistance is provided to multiple nations, the only one provided with direct financial assistance is Papua New Guinea.

General Information:

1: Information for the compilation of this return has been sourced from the 2005-06 Defence and DMO published financial statements.

2: Differences between totals and the summation of lines relate to rounding.

3: The Total Expenditures figure differs from numbers published in the Defence Income Statement because some items including Depreciation, Ammortization and Asset Write Downs have been excluded but Capital Investments have been included.
